

## Services Bus & Train Ready-to-install seat covers

### Key advantages

Lantal's ready-to-install seat covers feature the following key advantages:

- Single-source all-in-one solutions – woven, cut, sewn, certified – provide considerable time and cost savings
- Simple installation because the seat covers are delivered ready to fit
- Available on request with embroidered company logo or signature livery elements

### Ready-to-install seat covers

Lantal's ready-to-install seat covers are fraying-resistant. The following delivery options are available:

#### Seat cover fabric pre-cut

The individual elements are cut from the yardage and delivered in cardboard boxes.

#### Seat cover fabric pre-cut and sewn

The individual elements are delivered assembled.

### Embroidery

To strengthen your brand's presence, the seat covers can be embroidered with a logo or livery element.

Example:

### Specifications

#### Fire-safety requirements

Lantal operates a laboratory accredited by the German Eisenbahn-Bundesamt and is authorized to perform fire tests pursuant to DIN 5510-2. This allows us to deliver fire-test certificates together with the seat cover fabrics.

### Contact

Send us your approved data, sketches, or files with the exact measurements or a configuration blueprint with all relevant dimensions. We will be happy to respond with a professionally pre-cut seat cover that is conveniently upholsterable.

Contact Lantal and discuss your needs with us. We would be delighted to support and advise you.
