

Accessoires

Double-sided tape Relink 2318 B

Key advantages

The double-sided adhesive tape Relink 2318 B of Lantal has the following compelling advantages:

- The tape simplifies the work involved in carpet installation
- The tape comes off with the carpet and leaves no residues on the panel
- No need to clean the panel surface
- Tested and approved by Airbus

Specification

Composition

Adhesive polyacrylate, carrier polyesterfilm

Weight and Thickness

The double-sided adhesive tape Relink 2318B is a mere 0.21 mm thin and weighs only 210 g/m². It has been tested and approved by Airbus according to AIMS 10-05-014 and can be procured according to ABS 5648B.

Properties

It has different adhesion characteristics for the carpet and panel sides so that when the carpet is removed, the tape comes off with it and leaves no residues on the panels. This eliminates the need to clean the panel surface.

The tape is manufactured in an energy-saving process which requires no solvents.

It has a long shelf life and is remarkably ageing-resistant.

No waste disposal restrictions apply at the end of its life cycle.

Supply, prices and part number

The tape is 50-mm wide and comes on 50-meter rolls in boxes of 8 rolls. We can also supply it in other widths and lengths on request.

Part number: L25ZZ120516xxx
